

# CloudWatch-Alarms-Assignment

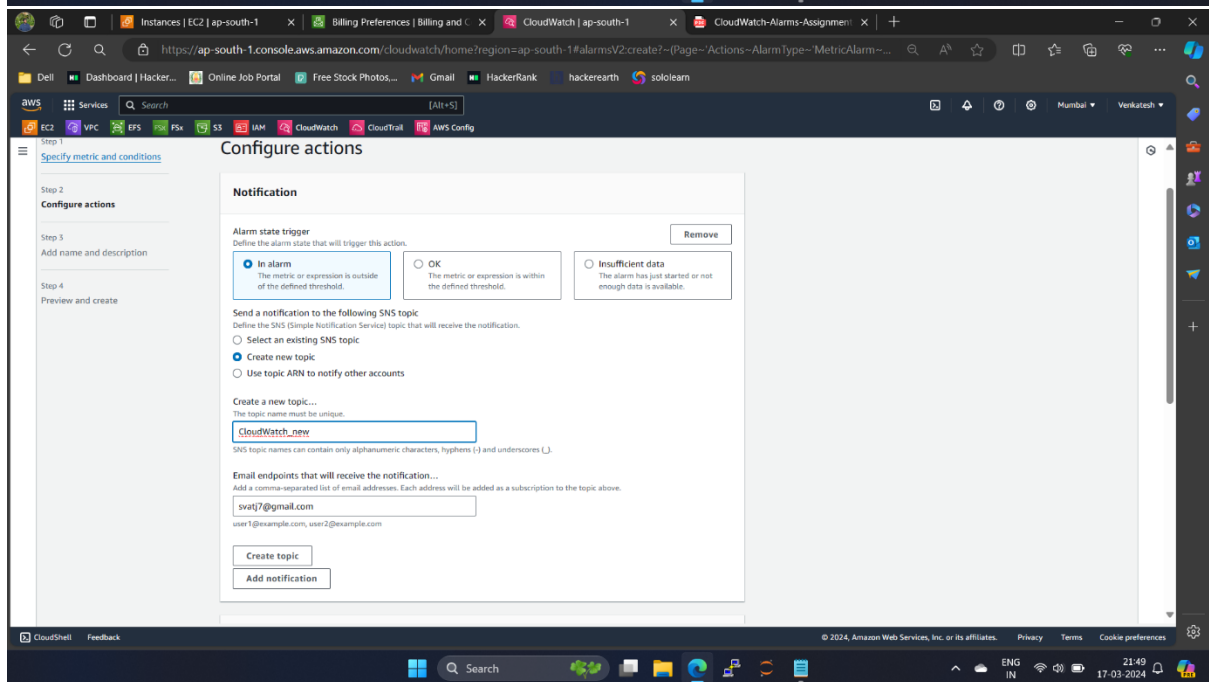

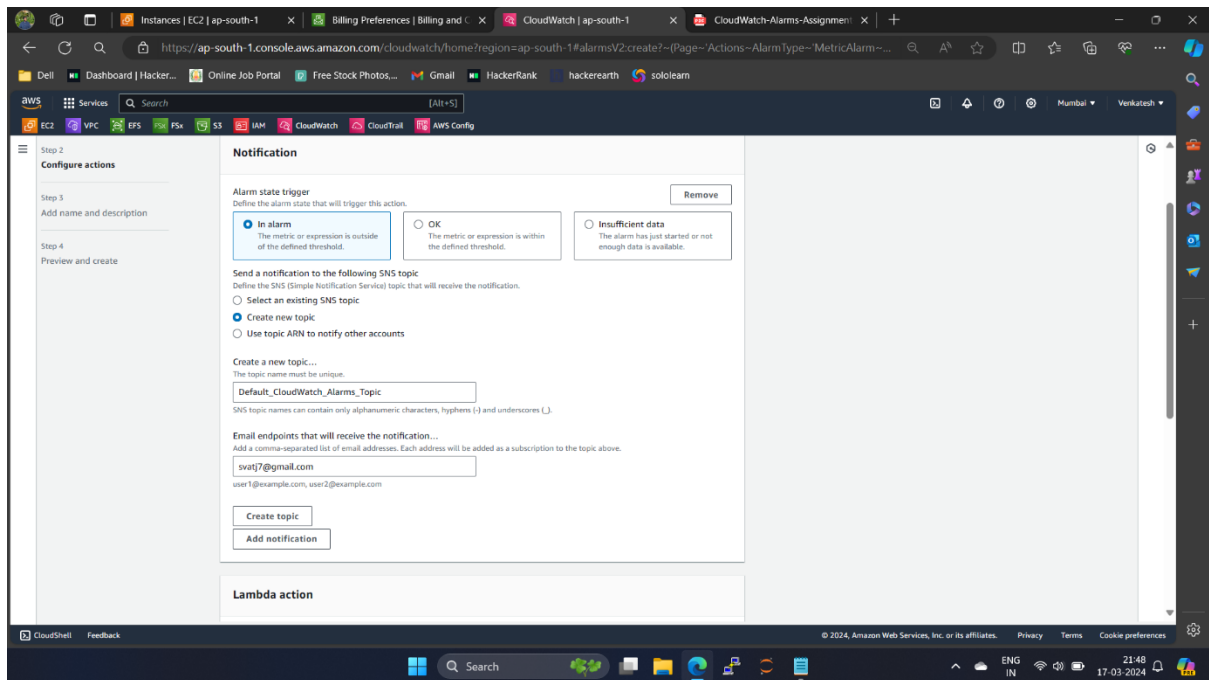

The image displays two screenshots of the AWS Billing and Cost Management console, specifically the Billing Preferences page. The top screenshot shows the overview of billing preferences, including invoice delivery and alert preferences. The bottom screenshot shows the 'Alert preferences' section with checkboxes for 'Receive AWS Free Tier alerts' and 'Receive CloudWatch billing alerts'.

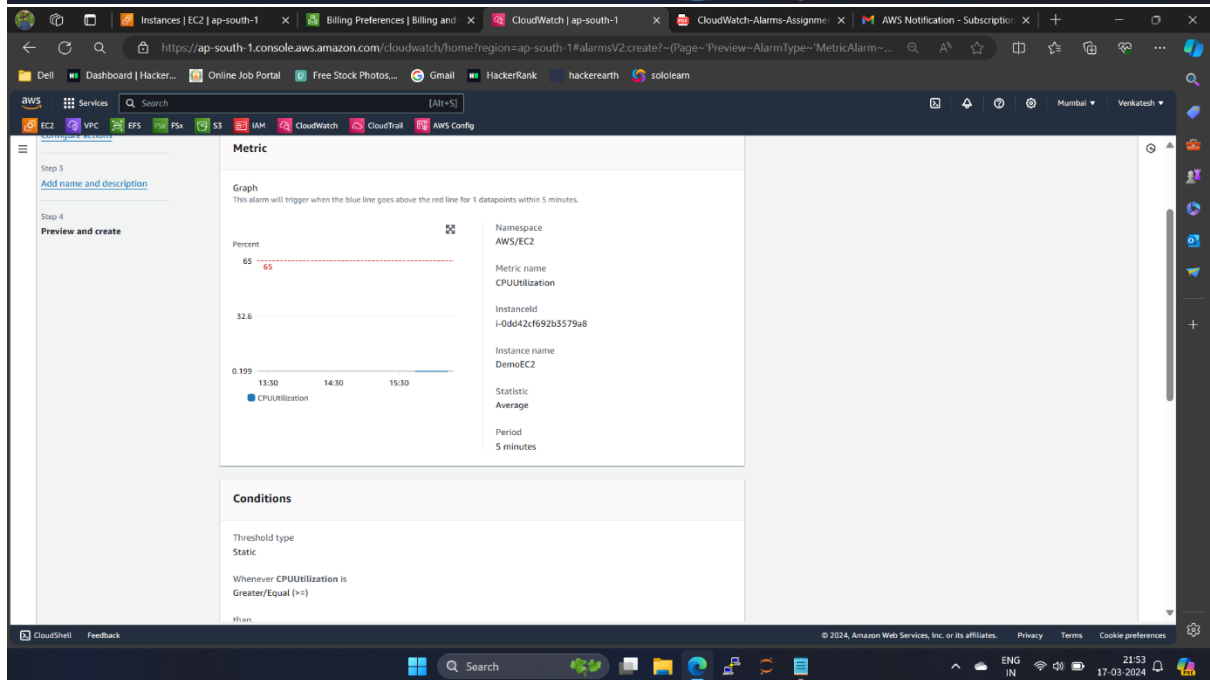

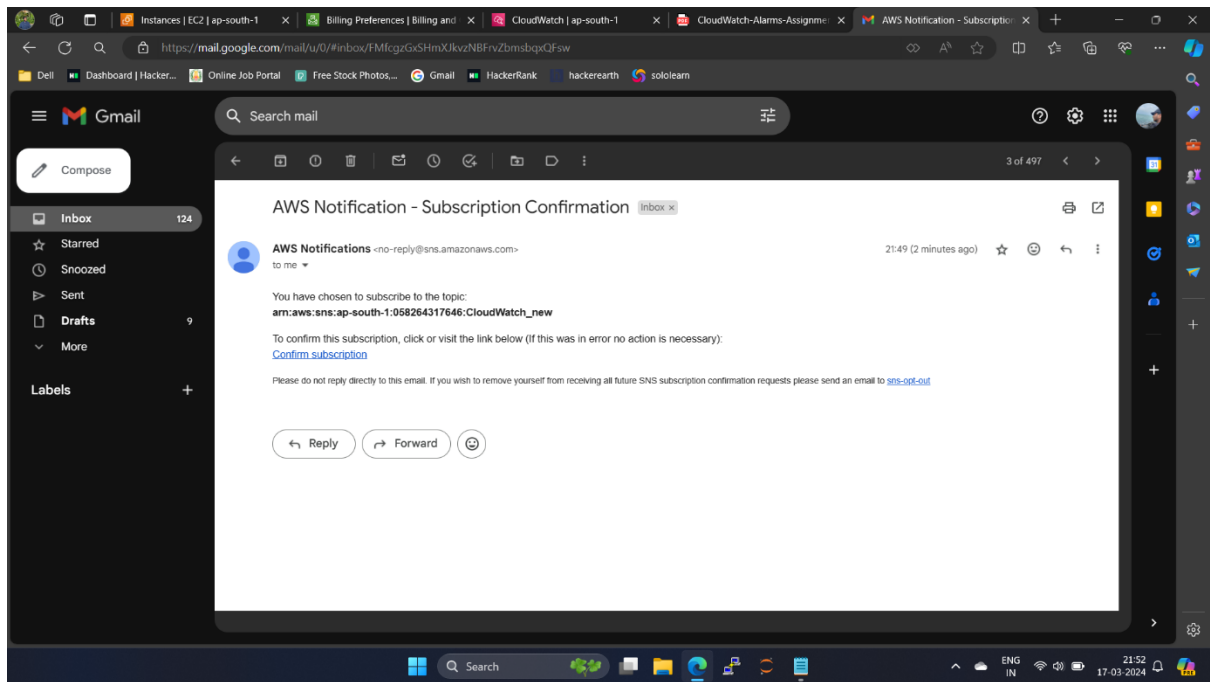

**Top Screenshot: Billing Preferences Overview**

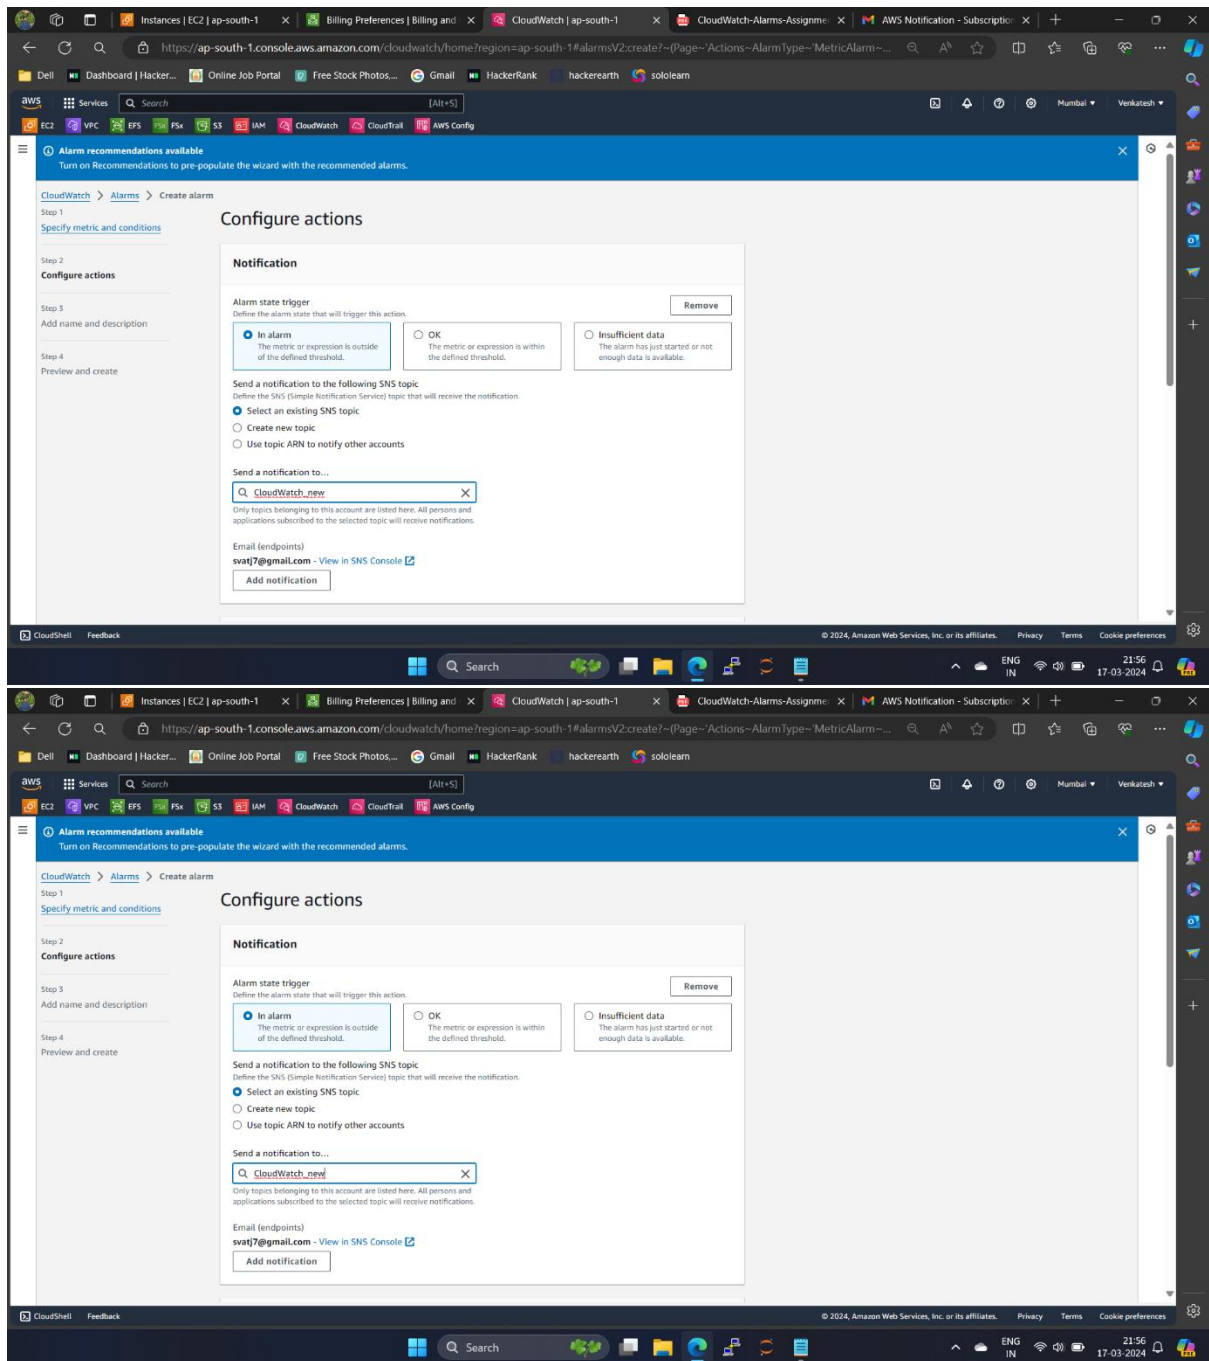

- Invoice delivery preferences:** PDF invoices delivery by email is **Deactivated**.
- Alert preferences:** AWS Free Tier alerts are **Delivered to** the root user email address. CloudWatch billing alerts are **Delivered**.
- Detailed billing reports (legacy):** Important: The AWS Cost & Usage report contains the most granular set of AWS cost and usage data available, including additional metadata about AWS services, pricing, and reservations (e.g., Amazon EC2 Reserved Instances). If you would like to access detailed information regarding your AWS costs and usage, we recommend creating an **AWS Cost & Usage Report**.

**Bottom Screenshot: Alert Preferences Configuration**

- Receive AWS Free Tier alerts:** If this option is selected, your AWS Free Tier usage alerts will be sent to the email address that you used to create your account. To send these alerts to a different email address, specify it below. (Email address to receive Free Tier usage alerts - optional)
- Receive CloudWatch billing alerts:** Once enabled, this preference cannot be disabled.
- Buttons:** Update, Cancel

CloudWatch

Some subscriptions are pending confirmation  
Amazon SNS doesn't send messages to an endpoint until the subscription is confirmed
